Samarinda, Indonesia ☆ Ready to start quickly; just need a few days to arrange flight and housing

SUMMARY

Dedicated full-stack software engineer with 8+ years in **web** or **mobile** development. Adept at clean code, and collaborative team success. Committed to making a big meaningful impact for significantly to project successes.

TECHNICALLY TEST (1 OF 3+)

News App

<https://github.com/yogithesymbian/yonewsai-fdd-jetpack-compose>

- Building UI with Jetpack Compose.
- Applying Clean Architecture + Atomic Design in an Android app.
- Using FDD (Feature-Driven Development) for modularity
- Writing unit tests & UI tests in Compose.

FEATURED EXPERIENCE (1 OF 7)

Full-Stack | Software Engineer

PT SARANA ABADI LESTARI

07/2022 - Present

WFA (Sal Palaran Base Samarinda), Kalimantan Timur, Indonesia

<https://salpalaran.com>

Port Services BUP Public Terminal

- Managed end-to-end lifecycle for 15+ long-term contracts since 2022, developing 3 real-time monitoring platforms (Land Route, River Route, Visitor) IoT for paperless operations, reduce heavy work into digitalization and establishing strong client relationships and trust. Running flawlessly 24/7 for over 3+ years.
- Active use across 200+ companies and collaborating with 3 major tenants PT. Pertamina Patra Niaga (PATRA), PT. Tripura Energi Megatara (TEM), PT. Palaran Indah Lestari (PIL), and Schlumberger (SLB) to continuously enhance maritime software by Client-facing Communicate and gather feedback to create solutions that meet their needs and refined.
- Ensuring clarity and alignment with client needs with EXECUTIVE SUMMARY, Project Overview, Obstacles, Technical Obstacles, Budget Risks, Payment Details, Hardware, Software/Architecture, Roadmap, and Milestones with Quotation. Result 100% acceptance through clear alignment with client needs.

EDUCATION

Bachelor Degree in Computer Science (A.Md.Kom)

POLITEKNIK NEGERI SAMARINDA

11/2017 - 11/2020 Samarinda, Kalimantan Timur, Indonesia

GPA

3.91 / 4.0

TKJ Technical Program in Computer & Networking

SMK NEGERI 2 PENAJAM PASER UTARA

01/2014 - 01/2017 Penajam Paser Utara, Indonesia

HONORS & AWARDS

21 Top Graduates of 2020 - Informatics Engineering Polnes

Recognized for academic excellence, selected to represent the program in a special academic event, and received an award directly from the Deputy Governor of East Kalimantan.

COMPETITION / HACKATHON 2 OF 3

National Polytechnic Student Informatics Competition IoT

09/2020

Held at Politeknik Caltex Riau [View Certificate](#)

Bali Startup Camp

12/2019

Aimed to grow Bali's startup ecosystem. [View Certificate](#)

KEY ACHIEVEMENT / INTEREST / MOTIVATED

Port management, Trucking, and Visitor Services

Users are satisfied with the digitalization process and trust the MVP, which has grown into a complex system and Trusted by 200+ tenants, running flawlessly 24/7 for over 3+ years

Team Collaboration Enthusiast

Strong interest in continuous improving team collaboration **with Agile/Scrum**. Achieved work **Client International** Japan, Australia, Poland, India (Upwork)

Over 3+ years of experience in AI Assisted

Fast learner with hands-on experience, using resources like Stack Overflow, ChatGPT, and Claude AI. Writing **clean, concise code** that follows **best practices** and **trade-off ideal vs pragmatic** solutions. From 2022 AI helps me learn faster, but it also makes me forget things, and my knowledge fades over time. I always create documentation like SOPs, so any setup or new project can follow previous steps and avoid missing anything.

LICENSES & CERTIFICATIONS / COURSE (5 OF 50+)

Prompt Engineering for Software Developer - Dicoding

Database Foundation Oracle - Polnes OA-2020/TI-006

Fifteen Great CTO Leadership Hacks - Udemy

Kotlin Android Developer Expert - Dicoding

Baparekraf 2020 - 2022 - Dicoding

SKILL I'VE USED IN REAL PROJECTS

Core Skill

Clean Architecture, Clean Code, Atomic Design, Design-Principles, Design Pattern, League Fractal Transformer Pattern, Domain-Driven Design (DDD), Feature-Driven Development (FDD), MVVM, OOP, Git, Jira / Trello, Clockify

UI/UX

Ant Design, Element UI, Bootstrap / Sass / CSS, Tailwind CSS, Cypress, Vuexy, Code Testability (but rarely), Figma, Custom Starter-Kit (Theme Forest)

Tech stack

Java / Kotlin, Android SDK, Jetpack, Jetpack Compose, XML, Flutter, Riverpod + Bloc, Flutter + GetX, Flutter + Provider, React.js, Vue.js 2, Next.js (V13 V14) SSR SSG, Typescript, Laravel, Laravue, Node.js Express Sequelize ORM, Microservices Rest API, Firebase, MySQL, NoSQL, Oracle 12c, WhatsApp API, Arduino UNO, Raspberry Pi 4, IoT, C++, Rust

Server / Others

VPS, Debian, Nginx, PM2, Cloudflare, Domain Generator Script, Termius, CI/CD, VULTR, Play Store, Apple Store

PROJECT HIGHLIGHT (1 OF 15+)

Construction Building Tokyo Japan

12/2021 - 01/2022 Indonesia, Japan - PT IMT

Secret Project **Rebuild old desktop app** (already running more than 20 years) into **Modern Website Using Laravel + Vue.js** with **Element UI** Starter Pack and There is had **200+ screen design on Figma**.

- Using multiple database connections (ISO, GHG, JIS), including MySQL and Oracle 12C.
- Optimized query response time from 15 minutes to seconds.
